Provider Access Policy**

Responsible post holder	Executive Headteacher
Approved by Governors on	October 2019
Next Review	October 2020

Introduction

From 2 January 2018 schools and academies must provide technical education and apprenticeship providers with access to students in years 8 to 13. This is a requirement of the Education Act 1997 (as amended by the [Technical and Further Education Act 2017](#))

This policy statement sets out the school's arrangements for managing the access of providers to students at the schools for the purpose of giving them information about the provider's education or training offer. This complies with the school's legal obligations under Section 42B of the Education Act 1997.

Student entitlement

All students in years 8-13 are entitled:

- to find out about technical education qualifications and apprenticeships opportunities, as part of a careers programme which provides information on the full range of education and training options available at each transition point;
- to hear from a range of local providers about the opportunities they offer, including technical education and apprenticeships – through options events, assemblies and group discussions and taster events;
- to understand how to make applications for the full range of academic and technical courses.

Management of provider access requests

A provider wishing to request access should contact:

Premises and facilities

The school will make the main hall, classrooms or private meeting rooms available for discussions between the provider and students, as appropriate to the activity. The school will also make available AV and other specialist equipment to support provider presentations. This will all be discussed and agreed in advance of the visit with the Careers Leader.

Providers are welcome to leave a copy of their prospectus or other relevant course literature at the school Reception, which will then be distributed to the most appropriate place within the setting so students can access at an appropriate time.
